

## **IF IT RAINS OR IF THERE IS THE THREAT OF RAIN**

ALL field directors are responsible for ordering two umps per game for all games scheduled on their field(s). Field directors are also responsible for postponing games with umpires in the event of bad weather or other conditions preventing play.

In the event of postponements and/or re-schedule field directors will notify the Tournament Director ASAP but NOT the individual teams affected by the changes. It is the responsibility of each individual tournament team to maintain contact with his field director in the event of bad weather.

TO REPEAT - In the event of potential rain delays, it is the responsibility of each tournament team to maintain contact with the Field Director (for the field that its next game is scheduled on) for all scheduling and weather updates.

As soon as postponements are known by the Field Directors, they will be forwarded to the Tournament Director who will post them on the website. However, when time is of the essence, the most current information will be available from your field director.

The brackets also will be updated for reschedules as soon as they are known
