

IF IT RAINS OR IF THERE IS THE THREAT OF RAIN

ALL Field Directors are responsible for ordering two umpers per game for all games scheduled on their field(s). Field directors are also responsible for canceling and/or postponing umpires in the event of any schedule changes due to bad weather or other factors preventing play.

In the event of bad weather or field conditions necessitating schedule delays and/or changes, the Field Director shall notify the Tournament Director ASAP but NOT the individual teams affected by the changes. It is the responsibility of each individual tournament team to maintain contact with his Field Director in the event of bad weather.

TO REPEAT - In the event of potential rain delays, it is the responsibility of each tournament team to maintain contact with the Field Director (for the field that its next game is scheduled on) for all scheduling and weather updates.

As soon as postponements are known by the Tournament Director, they will be posted on the website. Notification by email will accompany whenever possible. However, when time is of the essence, the most current information will be available from your field director.

The brackets also will be updated for reschedules as soon as the new times and possibly field locations are known.
