

## **CURRENT ENYTB BAT RULES (Last Updated June, 2019)**

While some baseball sanctioning bodies are adopting the USABat standard players at ages 14U and under beginning JAN 1, 2018, the BBCOR .50 remains the metal bat standard for High School and NCAA level play.

ENYTB has adopted the following bat rules by age division for spring/summer 2019 regular season play as well as for any non-sanctioned tournaments hosted by ENYTB e.g., MADNESS, Summer BLAST, SUPER 8, LAST MAN STANDING and the VALLEYCATS/ENYTB FALL CLASSIC:

### **1 - 12U and Under**

**USABat standard only i.e., bat must be stamped USABat;**

### **2 - 13U/14u**

**ENYTB bat rules for these two age divisions shall remain unchanged with the exception that bats with the USABAT stamp shall also be legal at these two ages.**

## **13U & 14U ENYTB BAT RULES**

### **A - 13U**

BPF Certified @1.15/MAX-6 w MAX diameter = 2 5/8" (BBCOR Certified also acceptable.)

NOTE: For bats manufactured prior to implementation of the 1.15 BPF requirement, a letter from the manufacturer stating that a specifically named bat model meets the 1.15 BPF standard shall be acceptable.

### **B - 14U**

BBCOR Certified/-3MAX w MAX diameter 2 5/8"

### **3 - 15U & Older**

**ENYTB shall remain a "wood bat only" league at 15U and older.**

NOTE1: Because USABat Stamped metal bats perform identical to wood bats, some thought was given to also allowing their use in the older ages but so far we are sticking with wood bats only at 15U & older.

NOTE2: When teams of different ages play each other, each team is required to follow the bat rules for its own age division. This would occur if a 13u team plays a 14u teams or a 14u team plays a 15U team.
